

## Our Countryside - £11.50/\$37\*

Our countryside is under threat. This book gives you the information to help counter that threat and does so with beauty and charm. Illustrating the pleasures and strengths of the British countryside, it represents a cross-section of interests and is important because it puts the case for field sports differently. It points out that if you want to preserve our countryside and its unique way of life then you have to realise that it is a complicated, delicate and indivisible whole which has been developed over 2000 years. Without its constituent parts, the rural way of life will perish.

## Baily's Hunting Companion - £9.50/\$30\*

This definitive book argues the case for hunting. It gives an insight into the complexities of running the sport and reports on the diversity of hunting worldwide. Some of the writers are well-known authorities, some are ordinary people involved in hunting. But all are bound by their love and enthusiasm for hunting.

## Field Sports and the Countryside - £11.95/\$42\*

This is a *tour de force* of British field sports and country activities – a delightful eye-opener for countless city-dwellers and an absolute treat for country folk everywhere. The authors pull no punches about the threats – political and ecological – which menace so much of our sporting heritage, but combine their stark warnings with happy and detailed narrative style. With beautifully illustrated chapters on fishing, shooting, hunting, coursing and falconry, amongst others, this book is a must for anyone with an interest in the rich countryside of Britain.

For hunts in England and Wales, in the light of the Hunting Act 2004, this directory lists only those hunts that intend to hunt legally.

Widely recognised as the only truly comprehensive source of information on hunts and hunting worldwide, the 2007-08 edition of **Baily's Hunting Directory** is another collector's item. To reflect the continuing restrictions faced by hunts in England and Wales, this year's **Directory** again has a black dust jacket with the traditional red cover beneath. It remains, of course, a handsome volume that can grace the shelves of any true hunting man or woman.

Inside, **Baily's Hunting Directory** continues to offer:

- Details of over 770 hunts worldwide
- Hunt country descriptions
- Colour photographs
- Major hound show results
- Specially commissioned articles
- Reports on the year's hunting
- Detailed indexes
- Hirelings listings

There is also a poster-size colour map of hunt countries.
